

Self-Service Airport Check-In

Streamline check-in, bag-tagging, luggage drop-off, and ID verification

FEATURES & BENEFITS

POWERFUL SCANNING: Scan passports, driver's licenses, smartphones, or printed tickets by Aila's intuitive, integrated scanning that reads 45+ 1D/2D barcode types.

IMPROVE THE CUSTOMER EXPERIENCE: 73% of customers prefer self-service over interacting with an associate—provide the speed and convenience they demand

REDUCE ERRORS: Eliminate data entry errors with ID/passport scanning and form auto-fill, ensuring accuracy of traveler information

GO TOUCHLESS: Scan to sign-in while providing socially distanced ways to serve patients at scale

ULTRA-FLEXIBLE DESIGN: Five durable mounting options ideal for any airport environment; compatible with leading printers, payment terminals; built-in accessibility with headphone jack and speakers
